FEEDBACK FROM EXHIBITORS

“

Gasparro is an Italian company engaged in the production of molding equipment in the precast concrete industry. This is the first time we are taking part in this exhibition, and we are very pleased because we are showing great interest in the Kazakhstan's market. As a company, we have already visited this country before, but this time we came as part of a business trip. We already have two clients, and we see prospects for development. We decided to participate in the AstanaBuild exhibition because we know that many projects are being implemented in Astana. The northern region is of particular interest of us – that is why we are here.

COSTANTINO DAVIDE, BUSINESS DEVELOPMENT MANAGER
GASPARRO SRL

“

The exhibition was very interesting and intense, so to speak. Especially on the first day, there was a large flow of visitors. We had interesting cases and worked with all the visitors at the stand. It's very interesting and full. It is at AstanaBuild that we participate for the first time, but as I see it, it is very interesting here. I think this exhibition will influence the development of the construction sector in Kazakhstan. Very interesting companies are represented, international companies, foreign ones, including us, as representatives of the plant, we are very interested.

KOSTAN ZHAKANOV, MARKETING SPECIALIST
ALUTECH

“

We really liked the exhibition, we were very surprised. This is our first time participating. We can see that the results were very good yesterday and today. Several of our future customers came to us, they got acquainted with our products, we agreed to contact them after the exhibition and continue working. Thank you very much for the organization. We will definitely take part in this exhibition next year.

ZENG LEVI, ENGINEER
GETO CENTRAL ASIA COMPANY
