FEEDBACK FROM EXHIBITORS

“

Our company has been a participant of the KazBuild construction exhibition in Almaty for more than 20 years. We are pleased to introduce our products to visitors again and show new potential for development. It is important for us not only to introduce new customers to the quality of our products, but also to meet with regular partners who are satisfied with our cooperation. The KazBuild exhibition is a great opportunity to strengthen existing ties and open up new business prospects.

“

The KazBuild exhibition is attractive to us because it provides a wide range of advertising and attracts a lot of visitors. Last year we had a small stand, but in just one year we have grown and presented a large, bright stand. During this period, we were able to make a big statement about ourselves and show significant results. I think this has become possible in many ways thanks to the KazBuild exhibition itself, which helps companies grow and develop.

“

Our company TSSP has been operating in the Kazakhstan market for over 22 years. For us, participation in the KazBuild exhibition is an opportunity to maintain a high image and find new partners and customers. Last year we won the award for the best product demonstration, and this year we plan to achieve even more and possibly win new awards. KazBuild is a significant platform that helps companies strengthen their positions and open up new prospects.
